PANTRY BY PREMIER

A fresh food program is based on several core factors to ensure success. The most important being a steady sales volume of prepared fresh foods. Based on other successful markets, this is typically satisfied by a location with a population of 250 or more personnel on site every day.

If your workplace has a projected population of less than 250, we can offer our PANTRY BY PREMIER program. This is a workplace subsidized program that is generally offered complimentary to all on-site personnel.

- Gives workplaces with a small footprint convenient access to fresh, nutritious foods every day
- Fosters pride, happiness, and teamwork amongst colleagues and workplaces
- Increases safety by keeping personnel on-site & nourished during working hours
